EN

Passion, tradition, distillation!

Discover craft alcohols blended in the heart of the Greater Poland region. Wielkopolska Manufaktura Wódek is a small family-owned distillery with three generations of history. We combine our heritage with the craft production process, respect for nature and modern business management.

Our experience results in unique vodkas and gins created out of love for distilling.

## Masuria Roots Gin

*Masuria Roots Gin is an artisanal gin produced on a basis of a family recipe passed down from generation to generation.*

*The core of Masuria Roots Gin is the careful fractional distillation of wild juniper berries and crystal-clear water drawn from the Masuria Spring in the protected region of Warmia-Masuria. Masuria Roots Gin is a composition of unique distillates: handpicked elderflowers and Polish apples. This product is completed with wheat alcohol. Thanks to the distillation in a small alembic, we obtain an extremely smooth, mild gin taste and a unique aroma.*

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP964	700 ml	43%	6 bottles	600 bottles

## Ice Floe

*Each bottle of Ice Floe vodka takes 365 days of craftsmanship and each batch is controlled many times during the production process. The unique character of Ice Floe is achieved thanks to the combination of the highest-quality wheat alcohol with water extracted from our own deep water intake (112 metres below the surface). Our five-fold distillation and the use of the best-quality grains guarantee a deep, delicate and slightly sweet taste. Produced carefully in small batches.*

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP230	500 ml	40%	6 bottles	600 bottles
RP181	700 ml	40%	6 bottles	504 bottles

## Miracle Rose Gold

*The luxurious Miracle cocktail vodka is available in three colour versions. Each of them is characterised by alcohol content and grain. The most delicate is vodka in a light pink bottle – Miracle Rose Gold – with a strength of 38% ABV, produced with carefully selected wheat and crystal clear water. Water is drawn from our own well; then it undergoes meticulous quality control. In the subtle Miracle Rose bottle, you will find, among others, sweet notes of wheat. This is one of the noblest grains from which vodka is made. Filtered with gold to achieve the finest taste and aroma.*

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP075	500 ml	38%	6 bottles	744 bottles
RP076	700 ml	38%	6 bottles	600 bottles

## Miracle White Gold

*Miracle White Gold is a unique 40% ABV cocktail vodka in a white bottle that is perfect for celebrating important moments. Carefully selected types of rye are used to create this version of Miracle. It is – next to wheat – the noblest grain from which alcohol is produced in Poland. It has a clearer, deeper and more multi-layered flavour than wheat-based vodka. The character of Miracle White Gold is expressed by slightly spicy notes that come from the source grain. The unique aroma is the result of using gold in the filtration process. A taste of luxury is guaranteed!*

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP079	500 ml	40%	6 bottles	744 bottles
RP080	700 ml	40%	6 bottles	600 bottles

## Miracle Dark Gold

The luxurious Miracle Dark Gold cocktail vodka owes its slightly sweet taste to the famous potatoes of the Greater Poland region. Sourced from local suppliers and carefully picked, they give you a sense of the highest quality. Miracle

Dark Gold in a black bottle is the strongest vodka in the Miracle collection – a 42.3% alcohol content guarantees an exquisite experience when celebrating important events and sophisticated moments. Those looking for nobility – will not be disappointed.

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP071	500 ml	42,3%	6 bottles	744 bottles
RP072	700 ml	42,3%	6 bottles	600 bottles

## Organic Vodka

Organic Vodka is crafted with organic wheat; therefore, it is marked with a 'green leaf' – the symbol of organic food certification in the EU. It is aged for a minimum of 30 days in vats and filtered using only natural methods. Thanks to this, it is distinguished by an extremely delicate taste and smell, with a slightly sweet aroma and smooth finish. Bottled at 40% ABV in 0.7L bottles. The handcrafted character of our Organic Vodka is emphasised by a wooden cap and an aesthetic paper label. In addition, each has a handwritten date of bottling and the signature of the recipe's creator.

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP246	500 ml	40%	6 bottles	Available from 04/23
RP180	700 ml	40%	6 bottles	600 bottles

## Rectified grain spirit

*Rectified grain spirit (neutral spirit) 95% ABV, crafted from selected cereal grains and crystal clear water, drawn from our own deep water intake. Valued for its mild flavor and versatility of use, for example: liqueurs and tinctures. The production process is supervised by specialists with many years of experience. Filtered with additional carbon filters for perfect purity and clarity.*

Product index	Capacity	ABV	Quantity per box	Quantity per pallet
RP045	500 ml	95%	15 bottles	900 bottles
